This is your opportunity to get the "big picture" on the State as a whole while learning in more detail how your agency is affected.

AUDIO CONFERENCE: **"Getting a Handle on Internal Controls."** AGA, in conjunction with the National Association of State Auditors, Comptrollers and Treasurers (NASACT) and the Association of Local Government Auditors (ALGA), is pleased to announce a new audio conference on making internal controls work by considering risks to the organization and understanding the impact of inefficiencies on fraud, waste and abuse. This audio conference addresses the elements of internal control from top management to operating levels. It includes the consequences of failing to pay attention to organization operations and the internal control environment, so often overlooked by auditors and management alike. Major inefficiencies creep into organizations with little or no internal controls, creating an environment where fraud, waste and abuse can and often does, occur. To share his knowledge and expertise about internal controls is: **William D. Miller, CGFM, CIA**, county auditor, Johnson County, KS and member of AGA's National Executive Committee. Come and listen to an expert from the great State of Kansas.
